

Randy Jones Award for Excellence in Airport Noise Mitigation

Introduction

The late Randolph Jones, AIA was known in the airport noise mitigation industry as a leader and innovator. Those that had the opportunity to interact with Randy knew him as a gentleman and gifted professional who helped shape the noise mitigation industry that exists today. The Randy Jones Award for Excellence in Airport Noise Mitigation annually recognizes an individual or organization that has made a significant contribution to the industry.

Process

Anyone can nominate an individual or organization for the award. Nominations for the annual award will be received by the Airport Noise Mitigation Symposium planning committee through June 30. A subcommittee will evaluate all of the nominees against the evaluation criteria and make a selection for the award. The award will be presented at the annual AAE Airport Noise Mitigation Symposium.

Award Evaluation Criteria

The Randy Jones Award for Excellence in Airport Noise Mitigation is designed to recognize the efforts of an individual or organization that has made a significant contribution to airport noise mitigation that generally entails land acquisition, sound insulation programs, and other projects related to the implementation of noise compatibility programs. Individuals and organizations that have been nominated for the award will be evaluated against criteria that include:

- Recognition as a leader in the airport noise mitigation industry.
- Known for employing innovative techniques in the solution of complex issues and problems.
- A reputation for enhancing the relationship between airports and the community.
- A contributor to the knowledge base of the industry.
- Developed tools or techniques that have furthered the industry and improved the effectiveness of noise mitigation programs.
- Dedicated to enhancing the quality of life for airport neighbors.

Please see candidate nomination form on the back of this page.
